[Solar Questions : r/longisland](#)

A solar lease means you pay to lease the solar panels on your roof that cut your energy bill. The upside is you don't own the panels so you're not responsible for it, but the downside is you're not actually investing in yourself or your property. I have Tesla panels (8kw) and 2x powerwalls in Nassau installed in March 2019. Let me know what

Japanese Solar Companies: Are Their Solar Panels Right For You?

Japanese Solar Panel Manufacturers: Experience Counts. Many people think of solar power as a relatively new technology. The truth is that solar panels have become more affordable in the past couple of decades, but the history of solar panels goes back over a century.. Many Japanese solar panel companies have been around for a half century or more.
