Solar panels recommended

Overview

What are the best solar panels?

1. SunPower SunPower Best performance overall . 2. REC Group Summit Energy via REC Group Best for warm climates . 3. Panasonic Panasonic Best for roofs with tight spaces . 4. Maxison Solar Technologies Maxison Solar Technologies Best warranty . 5. Jinko Solar Jinko Solar Best performance per penny . Why should you choose a solar panel system?

Sunlight is free, so once you've paid for the initial installation, your electricity costs will be reduced. Solar electricity is low carbon, renewable energy. A typical home solar panel system could save around one tonne of carbon per year, depending on where you live in the UK.

What are the best solar panels in the UK?

According to our findings, the brands with the best solar panels include REC Group, Sunpower, and AIKO. What is considered the "best" solar panel in the UK will vary depending on who you ask, and what metrics you value. Some homeowners may prefer a low-cost solar panel over one that's highly efficient, for example.

How do I choose the best solar panels?

For example, solar panels with the highest power ratings are ideal for large households, while more efficient panels are a better choice for small roofs and homes that don't get much sunlight. We'll offer more guidance on choosing the best solar panels for you in our buyers' guide, below.

Which solar panels are best for your home?

SunPower, REC, Panasonic, Maxison, and Jinko Solar offer the best solar panels. The type of solar panel, power output, efficiency, performance in warm climates, warranty, and price are the key factors to assess when comparing solar panels. The best solar panel for your home can depend on your roof space, shading, and climate.

How many solar panels do you need?

Solar panel systems tend to be made up of between six and 12 panels, with each panel generating around 400 to 450W of energy in strong sunlight. You can use our online assessment tool, Go Renewable, to find out what renewable technologies are suitable for your home. The average solar panel system is around 3.5 kilowatt peak (kWp).

How many solar panels are there in the UK?

There are now 1.5 million solar panels on homes across the UK. As well as saving you money on energy bills, solar panels can earn you cash. And don't worry, they can still generate electricity on gloomy days, vital when the weather's as dull as dishwater.
