Solar panels that store energy Jersey

Overview

Why is solar important in Jersey?

Solar is a vital component of modern homes in Jersey, contributing to the state's renewable energy and energy management. For those focused on the bottom line, solar serves as a safeguard against rising grid electricity costs.

How do solar panels work in New Jersey?

In New Jersey, solar panels are installed on warehouse rooftops and other community projects. The solar power generated is delivered into the local power grid, and you receive dollar credits on your utility bill as if you had generated the electricity yourself. HOW IT WORKS: Solar Panels are located at community projects across New Jersey and send electricity into the utility grid.

Why should you choose SunWorks Solar?

SunWorks Solar is Jersey's only dedicated PV provider, offering Solar PV to both commercial and residential properties. With more homes in Jersey powered by solar through SunWorks than any other firm, you can trust us for great service and the best suited PV system.

Who is SolarEdge?

SolarEdge is an industry leader and is at the core of SunWorks' product offering. SunWorks is the only trusted installer located in Jersey listed on the SolarEdge website. Find out more about SolarEdge and their unique, cutting-edge solar technology.

How much does a 4KW Solar System cost to install?

For the average 3-bedroom house in 2023, a fully installed 4KW (10 panel) solar system typically starts at around £8,000. Keep in mind that additional costs may arise for safety measures like scaffolding or concurrent property work (roofing, painting, etc.).

Can you sell electricity back to the grid in New Jersey?

In New Jersey, calculating net metering credits involves a straightforward process. First, the electricity meter tracks the energy produced by the solar panels and the energy consumed by the property. The utility company deducts the amount of electricity fed into the grid from the total energy consumed, resulting in the "net" energy consumed.

For those of you who have switched to solar in NJ, are you

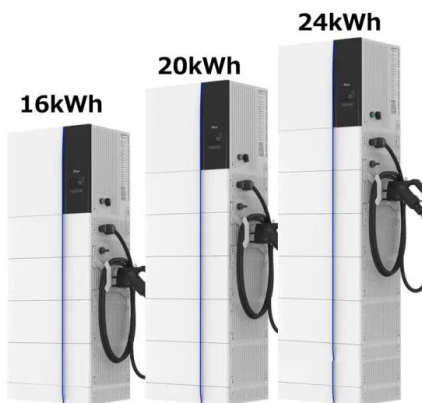

Once we finally started harvesting solar energy, our electric bill was averaging \$5-10/mo the past few months. We bought our setup vs. leasing which opened up a lot of federal & NJ rebates.
