

## Solar Energy South Africa

# Solar photovoltaic panels on warehouse roof

## Overview

---

All photovoltaic solar panels are made up of solar cells. These cells convert sunlight into an electrical charge. Panels come in a range of sizes, each designed for different sized installations. This table outlines the differences between typical photovoltaic panel configurations used in smaller residential and larger commercial.

Many believe that solar panels do not work unless in direct contact with sunlight, making the UK a less than ideal place for their use. This isn't the.

The cost of fitting your warehouse roof with solar panels is determined by several factors: 1. Available surface area of the roof 2. Size of the solar panels to be used 3. Amount of energy you.

If you're ready to get the ball rolling with installing solar panels on your warehouse, here are the next steps to take: 1. Contact your local authority to ensure planning permission isn't needed 2. Calculate your current energy.
