Despite the high cost of installing solar power, many are selling their assets, including cars, jewelry, and land, to afford this investment. Tony Karam, an engineer in non-renewable energy who owns a company offering ...

How Lebanon's crisis sparked a solar power revolution

For decades, paying two electricity bills in Lebanon has been the norm: one for state-provided electricity and another for a subscription to a private electricity generator.. Since 2019, Lebanon has been facing a severe financial crisis that the World Bank has called one of the worst in modern history. The country's already struggling electricity sector has felt the impact ...
