

Solar Energy South Africa

Solar power generation in Bangkok

Overview

Solar power in Thailand is targeted to reach 6,000 by 2036. In 2013 installed photovoltaic capacity nearly doubled and reached 704 MW by the end of the year. At the end of 2015, with a total capacity of 2,500-2,800 MW, Thailand has more solar power capacity than all the rest of Southeast Asia combined. Thailand has great solar potential, especially the southern and northern parts.
