Solar power panel light

Overview

What are the different types of solar powered lighting products?

Our range of solar lighting products include smaller fairy lights and outdoor string lights, stake lights, lampposts and even novelty themed lights. So, if you 're looking for a subtle twinkle, or need to illuminate a pathway, then we will have the perfect solar powered lighting solution for you.

Where can I put solar powered garden lights?

With simple fixings, you can add our solar powered garden lights wherever they work best, including to your fences. Outdoor lighting is also useful when it comes to security and surveillance, which is why you'll find a great selection of motion detecting PIR security lights here at Toolstation, with ranges of up to six metres.

Are solar powered garden lights a good choice?

An eye-catching and energy-savvy choice, solar powered garden lighting is the smart way to illuminate your outdoor space. What's more, solar lanterns and lights are easy to install, with no need for unattractive wiring or outdoor plug sockets.

Why should you choose decorative solar lights for your garden?

Explore our beautiful range of decorative solar lights to add some fun and character to your garden. Garden lighting is a must so you can enjoy spending time in your garden after dark during the warmer months, and it can go a long way towards creating the desired ambience in your outdoor space.

Do solar lights need a power cable?

Because solar lights rely entirely on sunlight which is then converted into an electrical current, there's the added bonus of ultra-easy installation - and there's no need for power cables either! Our range of solar lighting products include smaller fairy lights and outdoor string lights, stake lights, lampposts

and even novelty themed lights.

Are solar garden lights easy to install?

Solar lights for the garden come in all shapes and sizes, from decorative lanterns and string lights to practical solar wall lights. With easy installation and no need for mains wiring, simply position your solar garden lighting where desired and let the sun get to work. How Long Do Solar Garden Lights Last?
