Safran Electrical & Power

Smarter electrical solutions for a better flight
Safran Electrical & Power is one of the world's leaders in aircraft electrical systems. It is a key player in the equipment electrification & in the electric and hybrid propulsion sector. Mastering the on-board energy system, the company designs and provides modular, innovative and optimized architectures and solutions.

Safran Solar energy production

Safran, working with Réservoir Sun and Idex, will generate part of the energy it uses by installing solar panels at 17 of its sites in France. With a total capacity of almost 50 MWp, the photovoltaic arrays will be installed mainly on parking lot shade structures and will cover a total area of just under 180,000 square meters (1.9 million sq.ft).

Safran Selected by Bell to Provide Electrical Power Generation ...

Twinsburg, Ohio, USA - May 15, 2024 Safran Electrical & Power, a world leader in aircraft electrical systems, announced today that they have signed an agreement with Bell Textron Inc.

to provide the starter-generation systems for the U.S. Army's new Future Long Range Assault Aircraft (FLRAA) program. Safran will supply an advanced high-voltage starter ...
