Solar sales Kosovo

Overview

What is the Kosovo solar auction?

Conducted through an open and transparent process, the Kosovo solar auction will offer investors a number of critical advantages, including guaranteed price assurance, streamlined administrative procedures with government agencies, and no land acquisition costs. The Auction process is underway:

Will Kosovo offer a 100 MW solar PV project?

Kosovo is holding a competitive auction for a 100 MW solar PV project. This is a tremendous opportunity for the country to partner with international and local investors to expand renewable energy generation. As a first step, we encourage developers and investors to review the Contract Notice and Prospectus, available via the links below.

Could solar power be used in Kosovo?

Different sources estimate different potential for solar and wind in Kosovo. These could be combined with Albania's existing hydropower to make a much more flexible electricity system, and in December 2019, the two countries agreed to set up a common electricity market.

Will Kosovo use solar energy for district heating?

In late December 2022, Kosovo became the first country in the Western Balkans Economy to use solar energy for district heating. Kosovo's Minister of Finance, Labour and Transfers, Hekuran Murati, said the project would ensure access to the central heating system for about 38,000 citizens.

When is the auction process underway in Kosovo?

The Auction process is underway: May 12 – Contract Notice released; and the auction announced by USAID Administrator, Samantha Power; Kosovo Prime Minister, Albin Kurti; and Minister of Economy, Artane Rizvanolli.

How will e-auction work in Kosovo?

The Kosovo Public Procurement Regulatory Commission demonstrated how the e-auction will work and how it will ensure transparency and fairness. Representatives from EBRD, IFC, and the EU discussed their work in Kosovo, emphasized the potential positive impact of the auction, and expressed their readiness to support potential investors.

Auction

In 2024, Kosovo completed its first ever solar auction with winning bidder, the Orllati consortium, for a 100 MW solar park in Kramovik.. This groundbreaking solar auction ensured a transparent and level playing field for qualifying bidders and is a testimony to growing investor interest in Kosovo's vast renewable energy potential.

"SOLAR 4 KOSOVO" PROJECT - Termokos

Within the "Solar 4 Kosovo" project, the construction of a heating energy tank with a capacity of 400,000 cubic meters is planned near the solar plant. In addition to providing quality heating for 12,000 new consumers, this project will also help reduce air pollution for the capital's residents by eliminating the need for other heating
