Technology

The Orion technology solar cell research project looks towards a new generation of photovoltaics, which will also be able to collect high wavelength sunlight (infrared) and transform it into electrical energy with very high efficiencies, creating a cell with an enormous power-to-weight ratio.. The nerve center of this research is located in the new research center in Dubai, thanks to which

[FAQs on Solar PV Systems](#)

Dubai is currently applying resolution number (46) of 2014 concerning the connections of generators of electricity from solar energy to power distribution system in the emirate of Dubai which was announced by H.H Sheikh Hamdan bin Mohammed Bin Rashid Al Maktoum, the Crown Prince of Dubai and the Chairman of the Executive Council of Dubai.

Solar System

While astronomers have discovered thousands of other worlds orbiting distant stars, our best knowledge about planets, moons, and life comes from one place. The Solar System provides the only known example of a habitable planet, the only star we can observe close-up, and the only worlds we can visit with space probes. Solar System research is essential for understanding ...
