#VanLife, Our Solar Power

Setup For Fulltime Van Living

Easiest solar power setup for van living? In the end we decided to take the easy way out and get ourselves a Yeti 400 from Goalzero. This is pretty much the closest thing to a solar system plug-n-play out there. The Goalzero Yeti 400 and our 100W solar panel became the meat and bone of our van solar system.

Thoughts on how to rebuild large electrical system

Even with 5000w solar with rainy and winter its hard to get full charge of batteries. The system doesn't seem very stable and lots of components. I'm wondering if I should add another pair of 48V batteries and setup the 48/12v DC converters then make sure the 12V is always topped off.

The Ultimate Guide To DIY Off-Grid Solar Systems

Off-grid solar installations in the middle of nowhere are often the first thing people think about when they think of going solar. While it's definitely not for everyone, DIY off-grid solar can be a great solution for those living in a remote area without reliable and affordable access to the grid, want to live a self-reliant lifestyle without monthly utility bills, or have the ...
