SATS Airfreight Terminal 5

The SATS headquarters at Singapore Changi Airport (SCA) has a high electricity demand for its operations. To reduce energy costs, a solar lease has been recommended to SATS. This arrangement would allow the installation of a solar PV system without any upfront costs, making solar energy an appealing option due to its immediate impact on lowering electricity bills.

IKEA Distribution Centre

IKEA has recently installed a solar energy system at its new distribution center in Pulau Indah, a town within Port Klang, Malaysia. The solar plant is strategically located near the coast. To avoid any waterproofing issues, our solar ballasted solution is placed on top of a membrane roof without penetrating it. This installation considers the roof's load-bearing capacity while ensuring

Pfizer Asia Pacific

Pfizer supports green initiatives by using solar energy to generate electricity for its Tuas manufacturing site and has implemented measures to recycle rainwater and solvents to reduce waste. Additionally, it is the first in the pharmaceutical industry here to recover waste heat for chilled water and steam generation. Singapore 1769 Geylang

YAMAZAKI MAZAK

This not only assures insurance coverage for the assets but also garners appreciation from system owners, such as CleanTech Solar, for providing effective solar engineering solutions. Address 21 Joo Koon Cir, Singapore 629053 Year 2017 System Owner Cleantech Solar System size 63.6 kWp Share

JTC Jurong Town Hall

In 2017, our solar structure after being deployed atop a bituminous membrane roof was featured in the Singapore Strait Times. Our system's lightweight design facilitated installation in just three weeks, enabling the project owner to save time and expedite the system's setup, thereby accelerating the project's financial returns.

CWT Nuclear

The CWT Mega Logistics hub in Singapore serves as a premier integrated warehouse and depot facility. It stands out as one of Singapore's pioneering logistic hubs to integrate solar technology, a feature that was incorporated into its design phase and meticulously executed to ensure significant reduction in carbon footprint alongside its clients.

Radha Export
