

Solar Energy South Africa

Solivus solar Uganda

Overview

Does solivus install solar on commercial roofs?

Solivus installs lightweight solar on commercial roofs that can't take the weight of conventional solar. Solivus has the Solivus Arc for domestic customers who want an aesthetic super clean ground mounted solution for their home . What's in store for the future?

.

Will solivus block utility-scale solar development in the US?

CleanTechnica is among those taking note of an accelerating movement to block utility-scale solar development in the US. Nevertheless, the field of small scale, distributed solar energy systems is still wide open, and the Solivus model fits right into that picture.

What is solivus arc?

Solivus is creating a revolutionary solar energy solution for homeowners. The Solivus Arc. Solivus® can provide storage solutions to meet current and future energy needs through our choice of carefully selected partners- from storing cheap off-peak energy through to customers enjoying grid-balancing income from batteries.

Why is solivus an EIS company?

The team owns a majority stake in the business. The fact that Solivus is an EIS company has been an enormous help. The government EIS scheme offers fantastic support for new innovative technology companies in the UK. What has been your biggest challenge so far?

.

What is solivus doing at Cotswold Airport?

This year, Solivus is ramping up installations including an installation at Cotswold Airport on aircraft hangars. The solar panels from this installation will generate on-site energy to power an electrolyser used to create hydrogen from water. The hydrogen will in turn be used as super green fuel to power new electric planes.

Who are solivus & trivandi?

Solivus is partnered with Trivandi, a world class project management firm that helped to organise the London 2012 Olympics. We have had wide press coverage (BBC, The Times, The Guardian, Forbes) and had the opportunity to appear and speak at industry and global events such as COP26.
