[Renewable Energy in Somalia](#)

According to Somalia's Ministry of Energy and Water Resources official, despite the success of renewable energy in Somalia, there is no replacement for an integrated nationwide power grid. While currently, remote areas gain their rudimentary access to electricity through mini-power grids, mini-power grids are ultimately unable to sustain the

Home

MOGADISHU, SOMALIA - Somalia lacks a national power grid and relies on imported fuel, wood and charcoal to address its energy needs. But energy experts say with the longest coastline in mainland Africa and an average of 10 hours of

sunshine per day, Somalia has great potential for onshore wind and solar power.
