Overview

What tax credits do solar panels get in Georgia?

The federal solar investment tax credit (ITC) is the biggest factor reducing the cost of going solar in Georgia. If you install a residential solar panel system by the end of 2032, you receive a federal income tax credit equal to 30% of the system's total cost. That includes equipment, labor and permits.

Are solar panels tax deductible in Georgia?

Georgia does not offer state incentives for solar panels, but you can take advantage of the area's abundant sunshine. However, you can claim the 30% federal solar tax credit, which also applies to home battery systems. The U.S. Energy Information Administration gathers electricity price data for all states.

Are solar panels a good investment in Georgia?

Solar power is blooming in the Peach State. Georgians use more energy every month than most Americans, which means installing solar panels in the area is more beneficial from a financial perspective than in most states. However, the high solar panel cost in Georgia can be a deterrent for many homeowners.
