At Mariposa Energía we take care of the whole process for you.

Why should you install a solar panel system in Malaga?

If you install a solar panel system, you will generate free power for your entire property. Even if you don't produce 100 percent of the energy you consume, solar will reduce your utility bills by a huge margin and you will still save loads of money. All of Solar Panels Malaga's clients are satisfied with the result!

Which latitude is best for solar panels in Spain?

Spain lies between 36° and 43° north latitude. This affects the efficiency of solar panels. The closer to the equator, the more solar energy there is. That's why we adjust the tilt and orientation of the panels to suit the location.

Why should you choose solar power in Spain?

This means that Spain has more potential to generate solar power and save on electricity bills. We also take into account the number of sunny days in your particular city, as this affects the reliability and consistency of solar power.
