Start photovoltaic panel installation

Overview

How do I install a solar panel?

Installing your solar panel is a straightforward process though calling in professional installers is recommended. Making sure these installers are accredited by MCS is highly important, so as to ensure a high standard of installation. A solar panel will be most effective if you have a south-facing roof.

Can I install solar panels myself?

While it's technically possible to install solar panels yourself if you have the necessary qualifications, we recommend you use our MCS-accredited installers who specialise in safe and professional solar panel installations. Solar installations must be: Completed by a registered and certified electrician.

How long does it take to install solar panels?

For example, solar panels can also be mounted on a wall. Once the scaffolding is up, the panels are usually installed in less than a day. The total time it takes can be affected by the type of property, the size and complexity of the solar panel system, as well as any unexpected, dangerous weather conditions.

What is a DIY solar panel installation?

DIY installations allow you to customise your solar panel system to match your home's energy needs and roof layout (or perhaps even a balcony). Some professional installations may offer limited options, while a DIY approach allows for optimising panel placement, choosing specific components, and tailoring the system for maximum efficiency.

Should you start a DIY project with solar panels?

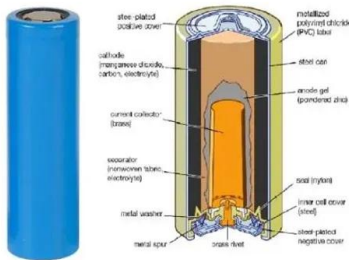

Beginning a DIY project with solar panels like EcoFlow Solar Panels marks a significant step towards securing renewable energy for your home. To install

your own solar panel system, you must first understand such a project's legal and practical aspects.

Do I need planning permission to install solar panels on my roof?

When considering the installation of solar panels on your roof, it's critical to understand if you need permission. In the UK, solar panel installations often fall under "Permitted Development," meaning you typically won't need planning permission.
