Sun panel inverter Jersey

Overview

Who installed the largest commercial solar installation in Jersey?

SunWorks was contracted by Jersey Electricity to install the Channel Islands' largest solar installation at Jersey Dairy, a total of 1,516 Solar panels. This saw the start of JE's lease scheme for commercial building owners and enabled SunWorks to deliver a world-class commercial solar installation in Jersey.

What happened to solar in Jersey (at SunWorks)?

Despite the global Pandemic, solar continued to grow at SunWorks in Jersey. In 2021, the company moved its headquarters to St Helier Business Park and was able to install solar panels there.

Why should you choose SunWorks Solar panels?

SunWorks Solar panels are a great choice for several reasons. As utility energy prices rise, the savings from using SunWorks Solar panels become even more significant. They offer a select range of specialist solar products suitable for almost any roof type. Their solar panels come from reputable brands with robust warranties that extend up to 25 years.

Why did Mark & Ian start a solar business in Jersey?

Mark and Ian had to start pushing for a higher volume of installations for the survival of their solar business in Jersey due to its slow uptake. This marked a journey towards focusing on the business side and 'hitting the numbers'. Kevin Keen was appointed as the first Non-Executive Director with sales targets set and accountability held.

How can Sunworks make a more diverse energy future for Jersey?

Sunworks is striving to make a more diverse energy future for Jersey by providing the best advice, service, and solar technology. We look forward to a time when Jersey can say it makes the best use of its resources and is an example to other offshore jurisdictions. Sunworks' efforts towards this goal are

integral to modern homes being connected and integrated.

Who is SolarEdge Technologies?

Mark discovered SolarEdge Technologies while attending European solar trade shows in Munich and Birmingham. SolarEdge Technologies is an inverter technology that changed Mark's view of solar and the defined user experience he wanted to adopt. The first SolarEdge installation in Jersey took place in the summer of 2015.
