ENERGY / Work at the Saint-Martin power plant: possible ...

Air conditioning is one of the largest electricity consumption points in Saint-Martin. Limit its use. Otherwise, set the air conditioning to a moderate temperature, taking care to close doors and windows. Setting your air conditioner to one degree higher allows you to save 10% of energy. When leaving an air-conditioned room, turn off the equipment.

Thermal power at Saint Martin , Bouygues Energies & Services

Bouygues Energies & Services has responded to

the growing demand for energy in the French West Indies with the construction of an extension to the EDF power plant on the Caribbean island of Saint Martin. Since 2016, this new plant has ensured the supply of an additional 25 MW of power to the French overseas territory.

Times for sunrise and sunset in Saint Martin

The sun swings back and forth between them over the course of the year. At the solstice on June 21, it is perpendicular above the northern tropic, and on December 21 above the southern tropic. If a country like Saint Martin lies between these tropics, the sun crosses its latitude twice a year and then shines vertically from above.
