Sunseap energy Belgium

Overview

Who owns sunseap group?

SINGAPORE/LISBON, Nov 3 (Reuters) - EDP Renewables (EDPR) (EDPR.LS) has bought a majority stake in Southeast Asian renewables firm Sunseap Group, creating a solid platform for the Portuguese company to accelerate growth in Asia, the CEO of EDP group and EDPR told Reuters. The deal values Sunseap at S\$1.1 billion (\$816 million).

Why did EDPR acquire sunseap?

In February 2022, EDP Renewables (EDPR) acquired a 91% stake in Sunseap. Since then, EDP Renewables APAC was formed, establishing a leading clean energy hub for the APAC region. The acquisition enables EDPR to extend a truly global reach and to address its increasingly global client base as well as its continued commitment to renewable energy.

Who is sunseap & EDPR?

Sunseap, founded in 2011, is a leading renewable energy champion based out of Singapore and has a history of over 11 years in Renewables in the APAC region. In February 2022, EDP Renewables (EDPR) acquired a 91% stake in Sunseap. Since then, EDP Renewables APAC was formed, establishing a leading clean energy hub for the APAC region.

How many solar projects does sunseap have?

As of September 2021, Sunseap portfolio includes 5.5 GW of solar projects: • 540 MW operating and under construction; • 127 MW of secured capacity ready to build; • 4.8 GW pipeline in different development stages.

What will EDPR & sunseap do?

EDPR and Sunseap will now work to develop clean energy projects across the APAC region, with a particular focus on solar and wind projects. The two companies will also investigate opportunities for energy storage and green

hydrogen projects.

Which countries does sunseap operate in?

Apart from Singapore, Sunseap operates in Vietnam, Cambodia, China, Taiwan, Japan, Thailand and Malaysia. EDPR's plan is to create synergies by combining its own expertise with Sunseap's regional knowledge and strong distributed generation track record.

Singapore solar energy firm Sunseap signs deal with Amazon

Local solar energy firm Sunseap Group has signed a long-term agreement with Amazon to export clean energy to the e-commerce giant through the national grid. The 62 megawatt peak (MWp) of renewable energy, tapped from industrial landlord JTC's solar farms, will help Amazon meet its commitment to achieve 100 per cent renewable energy by 2030.

Renewable Energy

Sunseap is part of EDP Renewables, one of the world's largest renewable energy producers. Through this collaboration, we will co-develop, build, own and operate rooftop and ground mounted solar PV projects in Malaysia. To make renewable energy a viable option among our industrial customers, we ventured into iron flow long-duration energy

-  **Efficient Higher Revenue**
 - Max. Efficiency 97.5%
 - Max. PV Input Voltage 600V
 - 200% Peak Output Power
 - 2 MPPT Trackers, 100% DC Input Overvoltage
 - Max. PV Input Current 35A, Compatible with High-Power Modules
-  **Intelligent Simple O&M**
 - IP65 Protection Degree: support outdoor installation
 - Smart ITC Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
 - DC & AC Type II SPD: prevent lightning damage
 - Battery Reverse Connection Protection
-  **Flexible Abundant Configuration**
 - F1&F2, MPPT, MPPT Switching Under 10ms
 - Compatible with Lead-acid and Lithium Batteries
 - Max. 6 Units Inverters Parallel
 - AFC Function (Optional): when an arc fault is detected the inverter immediately stops operation
