Thailand vyncke co ltd

Overview

Who is Vyncke NV?

Vyncke NV is a fourth generation Belgian global family business that originated in Flanders. It has over 350 employees in Belgium, Brazil, China, Czech Republic, Germany, Malaysia, Spain, and Thailand.

Where is Vyncke based?

Vyncke's activities range across three market segments: food and agriculture, wood, and recovered fuels. Its international business is distributed amongst Belgium (3%), Europe (45%), and outside EU (52%) with a strong presence in South America and Asia.

How does Vyncke energy work?

The company was founded in 1912 by Louis Vyncke to design and build steam energy plants to burn biomass and waste into thermal energy and electrical power. The energy is delivered as a combination of steam, hot water, thermal oil, hot gas, or electricity, depending on the industrial process.

Who is Dirk Vyncke?

The 1973 oil crisis presented an opportunity for Dirk Vyncke to convert the company into a global player, to turn biomass and waste into green and clean energy. In 1992, the enterprise became an NV. Peter Vyncke and his brother Dieter became co-CEO in 2002.

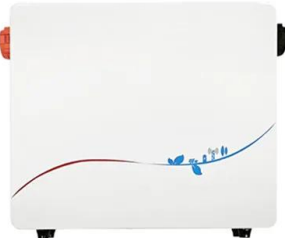

Who are vynckeneers?

With over 100 years of experience and craftsmanship in the field of combustion technology, we deliver tailor-made energy solutions to all industries and energy providers, globally. The Vynckeneers engineer and build industrial energy plants that convert biomass and industrial waste into clean energy.

Who is Michel Vyncke?

Michel Vyncke expanded the boiler manufacturing business across West Flanders and the North of France. When Michel died in 1972, the youngest son Dirk Vyncke continued to lead the family company.

Vanachai chooses 4ft line

In Suratthani province (the largest of Thailand's southern provinces on the western shore of the Gulf of Thailand) there are two particleboard lines under the name of Vanachai Panel Industries Co Ltd. The first was opened in 1998 and has a capacity of 1,000m3/day, while the second was started up in 2004 and can produce 1,500m3/day.

Vyncke builds global brand

The France-based wood industry company putting in Vyncke's first wood sector RDF-fired co-generation plant is Piveteau Bois. Vyncke already has RDF applications in other industries. "We hear wood-based panel producers talking about burning RDF to create energy, but the permitting process is complicated - with RDF you are entering the waste

- Efficient Higher Revenue**
 - Max. Efficiency 97.5%
 - Max. PV Input Voltage 1000V
 - 100% Peak Output Power
 - 2 MPPT Trackers, 100% DC Input Dimming
 - Max. PV Input Current 20A, Compatible with High-Power Modules
- Intelligent Simple O&M**
 - IP66 Protection Degree: support outdoor installation
 - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
 - DC AC Tap & SPD: prevent lightning damage
 - Battery Reverse Connection Protection
- Flexible Abundant Configuration**
 - Plug & Play, UPS Switching under 20ms
 - Compatible with Lead-acid and Lithium Batteries
 - Max. 6 Units Inverter Parallel
 - AFC Function (Optional): when an arc fault is detected the inverter immediately stops operation
