

Solar Energy South Africa

Trinasolar Benin

Overview

Who is trinasolar solar?

The privately owned ground-mounted PV plant is powered by Trinasolar's Vertex modules and Vanguard 1P trackers. Powered by Trinasolar, the rooftop of a waterfront warehouse has become a model for smart energy solutions that benefit businesses, investors, building owners and the community. A trailblazer in solar since 1997.

Who uses trinasolar?

A track record that speaks for itself. Our smart, industry-leading solutions are used by solar professionals around the world. In Thiva, Trinasolar is powering Greece's largest ever industrial rooftop solar installation. The project from Aenaos Energy and Nera Kritis is expected to generate 3,640,000 kWh of clean energy annually.

What is Trina Solar?

Efficient and reliable PV module, Trackers and system. Trina Solar Provides smart solutions for energy storage and IoT. The 210 Vertex Super Factory is home to the intelligent manufacturing of modules and the application of advanced technologies that are compatible with 210mm large-size wafers.

Why should you choose Trina Solar?

From full automation to top-class tech innovation, TrinaSolar further leverages module efficiency and reliability to bring greater customer value. As one of the leading solar photovoltaic manufacturers in the world, Trina Solar delivers a smart, industry leading solution for year energy needs.

Is trinasolar a good company?

TrinaSolar maintains some of the strongest financials in the industry and is consistently ranked as one of the most bankable solar manufacturers. In recent years, the Company has recruited international high-level management

and R&D talents from more than seventy countries and regions.

Where is trinasolar located?

Trinasolar began to build up its global presence from its inception. The Company was founded in Changzhou, Jiangsu Province, China, where its global headquarters is based. In 2022, Trinasolar established its international headquarters in Shanghai. It actively strengthened the building of global teams.

Solar Panel Success Stories and Project Deployments

Recently, Showtec installed a 130.98kW project, all using Trina Solar Vertex 600W modules, with an estimated power generation capacity of 185,000 kWh in the first year. Under the same installed capacity, the Trina Solar 600W+ module solution can achieve fewer modules and fewer DC cables, which objectively reduces labor costs.
