

Solar Energy South Africa

Turks and Caicos Islands voltec solar panel

Overview

Can Turks and Caicos use solar power?

The Turks and Caicos Government and Fortis TCI are currently reviewing the electricity legislation to enable Turks and Caicos residents to use the solar power they produce to offset their power consumption (rather than sell everything back to Fortis at their pre-agreed rate).

What type of power sockets are available in the Turks and Caicos Islands?

The power sockets on the Turks and Caicos Islands are of type A and B. The standard voltage is 120 V at a frequency of 60 Hz. Check your need for a power plug (travel) adapter on the Turks and Caicos Islands.

What is the standard voltage in the Turks and Caicos Islands?

On the Turks and Caicos Islands the standard voltage is 120 V and the frequency is 60 Hz. You can use your electric appliances on the Turks and Caicos Islands, because the standard voltage (120 V) is the same as in the United States of America.
