ST. CROIX — Officials cut the ribbon at the Petronella Solar Farm on Tuesday, bringing a new wave of renewable energy to the island, which is experiencing rolling blackouts due.

Planned solar farms on St. Thomas and — eventually — St. John could bring that number up to \$400 million. “Right now, this power is 10.9 cents per kilowatt-hour,” Loranger said. “If we can get federal funds to pay for it, it’s in the Virgin Islands’ hands — it’ll go to zero. Now, look what you can do with the power price.

The adjoining solar facilities will provide a total of 140 MW solar capacity. The solar-plus-storage system is expected to fulfill 30% of the islands’ energy consumption needs. According to the Department of Energy (DOE), the U.S. Virgin Islands have heavily relied on fossil fuels to generate electricity in the past.

The VIEO believes that the new Virgin Islands Solar for All Program has the power to transform the territory's residential energy landscape, addressing residents’ high electricity costs while.
