[Managed services](#)

We offer managed services that go beyond providing temporary power - we deliver hassle-free, reliable solutions tailored to your project's needs. Our approach involves a comprehensive assessment of your power requirements, ensuring you receive the most cost-effective, environmentally friendly, and suitable fleet selection.

How to hire your ideal temporary generator

Wernick Power is here to provide the most efficient, cost-effective solution. For example, if you obtain a 10-bay cabin arrangement and asked for a 200kVA generator without our advice, that chosen generator could be too large for your power usage on site. Consequently, by running on a low load, you would be wasting fuel, releasing unnecessary

[Wernick Hire Total](#)
