Yet another "renewable" energy project is on the horizon in occupied Western Sahara. And it is gigantic. The new solar project is three times as big as the two solar plants so far constructed in Western Sahara, combined. The information about the new 350 MW solar plant in Boujdour appears on the website of Morocco's Ministry for Energy

Siemens Energy y Larsen & Toubro se encuentran entre las multinacionales que habrían expresado su interés en ayudar a Marruecos a transportar la energía generada en el Sáhara

Western Sahara Resource Watch

Through its roll-out of massive energy projects in occupied Western Sahara, Morocco becomes more economically connected to, and dependent on, the territory it holds under illegal, military occupation. It intends to export energy generated in the territory to Morocco proper, and to sell off any surplus to surrounding countries, including the EU.

Deye inverters and Deye batteries are more compatible.
