What questions should I ask when I go to the photovoltaic bracket factory

Overview

What questions do solar companies ask?

One of the most common questions that solar companies get asked is, “What type of panels do you install?”

”.

Should you ask a solar installer about the equipment they choose?

Luckily, SolarReviews offers real customer reviews of solar panels, inverters, batteries, and more. That doesn’t mean you shouldn’t ask the installer about the equipment they choose. You should! Here are the questions to ask about solar panels and other equipment: Why did you choose the equipment you did?

.

What should I know before buying a solar system?

Before signing on the dotted line, talk to your installer about exactly what each of your warranties entails, how long the coverage periods are, and whether or not you can extend the policies for even longer during the lifetime of your solar panels. 7. What happens if a part of my system breaks?

.

How do you know if a solar installer is good or bad?

You can tell the difference between a good and bad installer by how willing and open they are about answering all your queries. Solar panels represent the ideal of a low-maintenance product, and once yours are fully installed and activated, you may never have to contact your installer again.

What should I include in a solar installation quote?

The quote should also include information on the incentives available to you, especially the federal solar investment tax credit (ITC), which can earn you 26% of the cost to install solar panels back as a tax credit the year after installation is complete. Here are the questions to ask about costs and savings associated with your installation:.

How to choose a solar panel installer?

You must choose a company with the correct qualifications, to make sure that you get both the best job done and to avoid any solar scams. A reputable company should be able to provide proof of their qualifications upon request. The two key accreditations you want to look out for with any solar panel installer are MCS and RECC. 7.
