White Rock Solar Power Generation

Overview

What is the White Rock Solar Project?

The White Rock Solar project will develop a 20MW solar photovoltaic (PV) farm. The White Rock Solar Farm project is one of 12 large-scale solar PV projects supported by ARENA to increase the nation's experience in planning and building large scale solar PV and making it more competitive by increasing confidence and building supply chains.

What is White Rock Solar Farm?

White Rock Solar Farm is a ground-mounted solar project which is spread over an area of 70 hectares. The project generates 44,000MWh electricity and supplies enough clean energy to power 7,200 households, offsetting 36,900t of carbon dioxide emissions (CO₂) a year.

When was the White Rock solar project completed?

This solar project was completed on 22 May 2022. The White Rock Solar project will develop a 20MW solar photovoltaic (PV) farm.

What is Arena's White Rock solar farm project?

By supporting White Rock Solar Farm and other large-scale solar projects, ARENA is making the benefits of solar available to more Australian energy consumers. It is anticipated that the Project which features over 72,000 PV solar modules will be able to generate enough energy to power some 5,000 average Australian homes.

Did White Rock Solar Farm achieve financial close?

Goldwind today announced that White Rock Solar Farm in northern NSW has achieved Financial Close. 'The award of a large-scale solar competitive grant by the Australian Renewable Energy Agency (ARENA) has led to White Rock Solar Farm achieving Financial Close.

Who is the O&M contractor for White Rock Solar Farm?

UGL is the O&M contractor for the solar PV power project for a period of 2 years. For more details on White Rock Solar Farm, buy the profile [here](#). The gold standard of business intelligence. Blending expert knowledge with cutting-edge technology, GlobalData's unrivalled proprietary data will enable you to decode what's happening in your market.

White Rock Solar Power Generation

White Rock ' Solar Power Plant (World Map) , database.earth

White Rock Power Plant (Solar) The White Rock plant is a Solar power plant located in ?? Australia. White Rock has a peak capacity of 20.0 MW which is generated by Solar. Solar: Macquarie ...

White Rock solar farm , Power , UGL Projects

White Rock Solar Farm is commissioned and generating power to the grid and UGL is providing operations and maintenance (O& M) at the solar farm for an initial two-year period. The solar farm is expected to generate 46,000 ...
