Winter photovoltaic panel snow scraping tool

Overview

A foam-headed snow broom is perfect for removing snow from solar panels. Gently push and pull the broom across the panels. The foam won't scratch them. A plastic shovel can do the trick too. Do solar panels need a snow removal tool?

The snow removal tools that work for pavement, shingles, and car windows will damage panels and put a stop to generating power. Instead, you need a proven scratch-free winter tool that can protect your panels. Businesses, retailers, and consumers with solar arrays tackle solar panel cleaning with solutions like these:

How do you remove snow from solar panels?

This preparation reduces the risk of accidents or equipment damage during snow removal. Use the Right Tools: Utilize a soft brush or a foam-headed roof rake designed for solar panels to gently remove snow, avoiding scratches or damage to delicate panel surfaces.

How to remove snow from solar panels & awnings?

The Best Way to Remove Snow From Solar Panels, Awnings, Aircraft, Vehicles and Roofs Prevents ICE DAMS - THE SNOW PRO & ROOF BRUM! Our Soft Snow Removal Roof Rake tools are non-abrasive and specifically designed to not damage the surfaces you are using them on.

Are solar panel snow rakes safe?

The easiest, safest option for most homeowners, are solar panel snow rakes. These feature a soft, rubbery rake attached to a long telescoping pole that helps you easily access roof-top panels safely from the ground. The soft head allows you to quickly clear snow off your solar panels without worrying about scratching or damaging the surface.

How to choose a snow roof rake for solar panels?

Here are some important things to consider when choosing a snow roof rake for solar panels: Material: The rake should be made from a durable, lightweight, and non-abrasive material to avoid damaging the solar panels. Aluminum and plastic are commonly used materials.

How much does a solar panel snow rake cost?

The soft head allows you to quickly clear snow off your solar panels without worrying about scratching or damaging the surface. The best known solar panel snow rake is the Snow-Pro. You can buy the head alone for \$25 or the head and telescoping pole from \$65 to \$150 depending on the length of the pole.
