Wärtsilä Supplies 378 MW Power Plant To El Salvador

Wärtsilä Supplies 378 MW Power Plant To El Salvador (GLOBENEWSWIRE) - Wärtsilä has been

contracted to supply a major Flexicycle power plant to Energía del Pacífico S.A. in Acajutla, El Salvador. It will be the largest and most efficient power plant in El Salvador, and the first in Central America to be fired by LNG-based natural gas.

El Salvador shifts to cleaner energy with Wärtsilä floating

"For the power plant, the Wärtsilä Flexicycle solution was ideal, since it has greater flexibility than a combined cycle gas turbine solution to quickly respond to the electric grid's changing needs. It is a victory for cleaner, more efficient power generation," Joel Schroeder, Vice President of Thermal Engineering, at Invenergy said.

El Salvador to Build First State-Owned Solar Power Plant

San Salvador -- The state-owned and autonomous Comisión Ejecutiva Hidroeléctrica del Río Lempa (CEL) of El Salvador will build its first solar energy plant in the country, in the municipality of Talnique, in La Libertad department in the country's southwest, around 30km (18.5 miles) west of the Salvadoran capital.
