Yili Photovoltaic Combiner Box Manufacturer

Overview

What is a PV next combiner box?

Our flexible and compact PV Next combiner box was awarded the German Design Award 2023 in Gold. The modular design, the safe thermal and mechanical functionality of all components and the flexible connection types are just some of the advantages that make installation, maintenance and monitoring with PV Next easy.

What is PV next?

PV Next is the first combiner box worldwide based on a standardised printed circuit board design. The standardised concept leads to learning effects for the installer. Customizing is not necessary and project times are shortened. Easy. Fast. And safe. PV Next is the new benchmark for residential and commercial combiner boxes.

How to choose a solar box?

Choose the WM4 C connection for the ready-to-use box and reduce your operation time significantly. The other option is to choose cable glands and do your individual cabling. For many solar engineers it is important to have a switch on the box. In other regions it is not necessary. Your choice!
